

How are donated items recycled?

Newer items in good working condition may be used in our computer lab. Other items are disassembled and resold, or used for spare parts. Regardless, the equipment you provide helps us fulfill our mission of helping people with disabilities live full and productive lives.

About TECH

TECH helps people with intellectual and developmental disabilities live full and happy lives. Our ever-evolving services for children and adults are based on four principles: independence, creativity, self-worth and connection. Our e-Cycle Center employs TECH clients, who are coached by TECH staff.

TECH, Inc. is an Equal Opportunity Employer/Program. Auxiliary aids and services are available upon request to individuals with disabilities. Please advise if special accommodations are required to participate in any TECH activity.

Recycling your old technology through TECH's e-Cycle program is a win-win.

Together we can minimize landfill waste while providing training and employment opportunities for people with developmental disabilities.
